

TV mounts, tablet stands

and desktop mounts

From a mounting solutions expert

Established in 1995, we are one of mainland China's leading manufacturers of wall mounts for plasma, LCD and LED TVs. But that's not all we offer clients like you. We've also developed a full line of tablet stands for Apple's iPad, Samsung's Galaxy Tab and various e-book readers. And our new desktop mount has been warmly received in our numerous markets.

Our 80 senior R&D engineers draw upon their collective expertise to design one new product every month. These are added to the over 300 products already available in our catalog. Our experienced team will also handle your OEM/ODM orders as well – give us your idea, and we'll have blueprints ready in just three days.

In 2009, we reinvested \$3 million in a new molding center. And our new \$10 million, ISO 9001:2000-certified factory, opened just this year, spans over 50,000m² and has enabled us to increase our monthly capacity to 1 million units. With all production now performed in-house, we're able to offer lead times of 30 days or less. For more information, contact us today.

Desktop mount for 10 to 24" LCD/PDP TVs and computer monitors

Articulated mount/bracket for 37 to 55" LED/LCD TVs
 • Made of cold-rolled steel
 • Ultra-slim design – 32mm between the wall and the TV
